Financial Assistance for Senior Living & Senior Care

The U.S. Census estimates that 16.2 percent of the nearly 2 million people living in Nebraska are 65 years or older. Many of these senior residents currently require nursing home care or a level of assisted living, and more will in the future. Many Nebraskans have come to discover the cost of senior living and senior care can be prohibitive, even for families with quality insurance and ample savings.

To help defray the high costs of senior living and senior care, the state of Nebraska offers several benefit programs. These programs can help you and your loved ones cover the costs of elder care.

**Medicare**

Original Medicare consists of Part A, which covers services provided on an inpatient basis, and Part B, which covers outpatient services. For example, Part A covers nursing care provided during a hospital stay, while Part B covers things like doctor visits and durable medical equipment.

**How to Apply**

To apply for Medicare online, visit the Social Security Administration website and fill out the form. You can also apply by telephone or in person. Call (800) 772-1213 to speak with a representative or use the online locator to find a Social Security office near you.

**Eligibility**

To receive Medicare benefits, you must be at least 65 years old or have a qualifying disability or end-stage renal disease. Everyone pays a premium for Part B, but you may qualify for premium-free Part A coverage if you or your spouse worked and paid Medicare taxes for at least 10 years.

**Medicare Advantage**

Original Medicare is managed by the federal government, but Medicare Advantage Plans are sold by private insurance companies. Each plan must offer at least the same amount of coverage as Original Medicare, but many insurers offer extra benefits to make their plans more attractive to consumers.

**How to Apply**

Use the Find a Medicare Plan tool on Medicare.gov to compare Medicare Advantage Plans in your state. When you're ready to enroll, call (800) 633-4227 or contact the plan provider directly.

**Eligibility**

If you're eligible for Original Medicare, you are likely eligible for Medicare Advantage; however, confirm eligibility requirements with the plan provider.
Medicare Part D

Original Medicare doesn’t cover most prescription drugs, so you may want to enroll in Medicare Part D, a supplemental plan that pays for a wide range of medications. Each plan has a formulary that explains how much coverage is provided for each type of drug. Most Medicare Advantage Plans include prescription drug coverage, and you can’t enroll in Medicare Part D if you have a Medicare Advantage Plan that pays for prescription medications.

How to Apply

Use the Find a Medicare Plan tool on Medicare.gov to find a plan that meets your needs. When you’re ready to enroll, contact the plan directly for instructions on applying for coverage.

Eligibility

To qualify for Medicare Part D, you must be enrolled in Medicare Part A and Medicare Part B (Original Medicare) or one of the few Medicare Advantage Plans that doesn’t cover prescription drugs.

Medicare Savings Programs

For Nebraska seniors on Medicare who need help with their deductibles and out-of-pocket costs, the state offers a number of Medicare Savings Plans:

- **Qualified Medicare Beneficiary Program:** This MSP helps pay for Medicare Part A/Part B premiums, Part A/Part B deductibles and Part A/Part B coinsurance.
- **Specified Low-Income Medicare Beneficiary:** The SLMB program helps pay Medicare Part B premiums.
- **Qualified Individual:** The QI program also helps participants pay their Medicare Part B premiums, but it has higher income limits than the QMB and SLMB programs.
- **Qualified Disabled Working Individual:** This MSP pays Medicare Part A premiums for participants who lost their Medicare and Social Security disability benefits because they returned to work and earned more than the allowable limit.

How to Apply

You can apply for the QMB, SLMB and QI programs by contacting the Nebraska Department of Health and Human Services at (855) 632-7633. To apply for QDWI, either contact the Department of Health and Human Services at the same number or call the Benefits Coordination and Recovery Center at (855) 797-2627.

When you retire, you’ll receive monthly payments based on how much you earned when you were working.

Food Assistance Programs for Seniors

Good nutrition is vital for older adults and is important in the management of certain health conditions common in later life. For seniors on fixed incomes or who have financial constraints, or who find it difficult to make it to the grocery store or prepare nutritious meals because of physical limitations or lack of transportation, getting the nutrition they need can be a challenge. Fortunately for these Nebraskans, the state has a number of food assistance programs specifically designed to help seniors obtain the nutrition they need at the lowest cost and with the least effort. These programs include Meals on Wheels, food pantries and government assistance programs.

Meals on Wheels

Meals on Wheels provide home-delivered fresh, nutritious meals to seniors throughout their service area, helping combat both hunger and loneliness. Each Meals on Wheels office determines its own delivery schedule and menu. The typical eligibility requirements for assistance from Meals on Wheels include advanced age, difficulty obtaining ingredients and preparing meals due to physical or mental limitations, unable to attend a senior center, lack of cooking supplies or equipment, lack of support from a spouse or family members, and the willingness to undergo periodic assessments of needs.
